

Industries / Applications

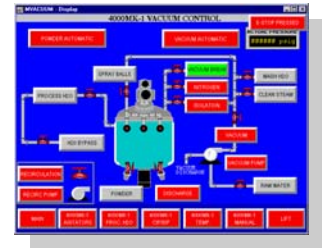

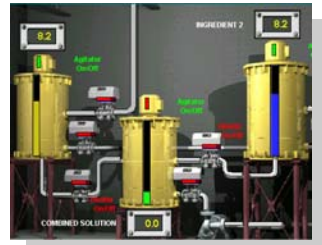

- Specialty Chemical
- Food & Beverage
- Cosmetic
- Pharmaceutical
- Power Generation
- Pulp & Paper
- OEM Machine Builders
- HVAC - Commercial, Industrial
- Waste Water Treatment
- Potable Water
- Hazardous Waste
- Liquid Natural Gas Utilities
- Aerospace
- Adhesives & Coatings
- Plastics

SLSD Services

- Project / System Conception
- Design and Engineering
- PLC & HMI Programming
- Recipe Based Controls
- Data Acquisition Systems
- Panel Construction
- Automated Machine & Process Construction
- On Site Installation, Start-up & Technical Assistance
- Pump / Chemical Feed Skids
- Dilution Skids
- Potable Water Pump Skids
- Powder / Liquid Mixing Systems
- Heat Trace Systems
- Fiber Optic / Ethernet Communications Networks
- And more.....

That's Not Our Problem!

You have a production deadline and a single cell is down. The problem is not apparent so you call the equipment supplier. They say "It must be the controls". The control's company say's "It something with the machine". One supplier is pointing the finger at another supplier and your are still dead in the water.

What if there was a company that could supply everything. A company that was knowledgeable about the machine and how to control it. There is a company. Silver Lake Systems & Design and it's partners comprise a full service machine and controls fabrication facility. From project conception to completion, Silver Lake has the staff to bring your system to life.

Our experienced staff of engineers is available to assist in the selection and manufacture of controls and equipment for your process.

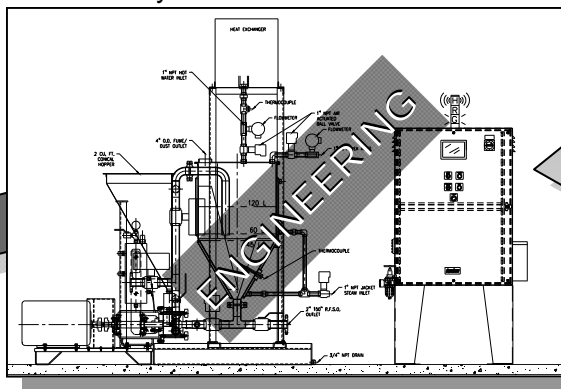

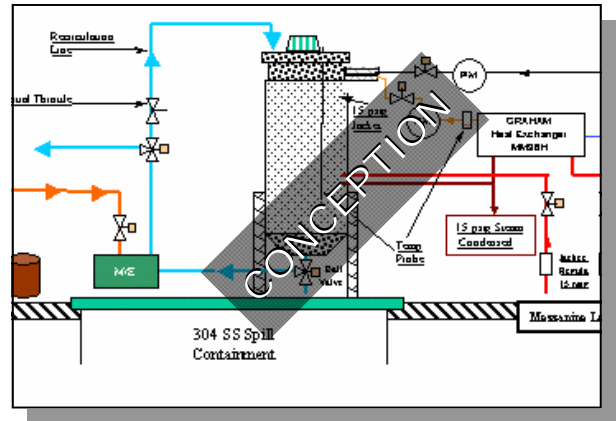

From Conception to Completion

Single Source Supply..... to some it is merely a buzz phrase, to other's it is a necessity. Silver Lake's experienced team of managers, designers and engineers can provided the project evolution you need.

Our engineers listen to your process needs and desires. From these conversations we are able to hone in on the system that will meet your production requirements and not break your budget.

Many of our customers already know what they want and how they want to accomplish it. We can pickup at any stage you desire. Whether your 50% through engineering or just need someone to manufacture your design, Silver Lake can do it.

YOUR LOCAL REPRESENTATIVE

No one understands your mixing, blending or process needs better than Silver Lake. Our team and partners will work with you to build a world class system to optimize production and plant safety— and integrate seamlessly with your plant management systems
